**Synaps® Digital XM is the superior alternative to traditional lamination.**

Synaps® Digital XM is the next generation of synthetic paper made from high-grade polyester. Polyester films have superior dimensional stability, and the look and feel of premium paper. The result: great looking printed applications that hold their shape and color without extra laminates and coatings. Synaps® Digital XM is waterproof and resistant to grease, chemicals and other liquids, characteristics that make the product suitable for both indoor and outdoor applications. With Synaps® Digital XM, you can say goodbye to bowing, curling, delaminating and fading, in any environment.

- + **Reliable** - Because of its polyester base, Synaps® Digital XM will not distort or stretch during the printing process for superior registration. You can trust that Synaps® Digital XM will run consistently each time you print.
- + **Strong** - Synaps® Digital XM is waterproof, tear-proof and weather resistant to hold up in the toughest indoor and outdoor conditions. Synaps® Digital XM is the perfect alternative to lamination.
- + **Compatible** - Printing with dry toner/laser printing platforms.
- + **Versatile** - With high rigidity and flatness, Synaps® Digital XM is suitable for a wide range of applications like durable point-of-purchase displays, signage, menus, maps and manuals.
