Thermanent Digital PS is engineered specifically for high heat, toner-based digital printing.

Features

Thermanent® Digital PS is a polyester pressure sensitive sheet that offers strength, digital runnability and durability. Offered in both permanent and low-tack adhesives, and four different finishes, Thermanent® Digital PS fits a wide range of applications.

Benefits

- › Incredible tear strength
- › Prints and looks like regular paper
- › Permanent and low-tack adhesives
- › No shrinking or swelling when exposed to heat or moisture
- › Beautiful permanent images even in the harshest environments
- › A thin film release liner improves runnability and dimensional stability
- › Premium clean stripped edges mean your machine won't get contaminated from adhesive goo
- › Durable labeling and removable/ repositionable applications without leaving residue on surfaces

Applications

- Reverse Printed Window Stickers
- Permanent Labeling • Shelf Labels
- Custom Food & Beverage Labels
- POP Signage • Bumper Stickers
- Removable Holiday Decals
- Permanent Regulatory Labels
- Removable Labeling

★ All products have 2 mil polyester facestock and 0/split polyester film release liner.

FINISHES

- Gloss/White:** White opaque film a smooth glossy surface
- Matte/White:** Bright white opaque film an elegant silky matte surface
- Gloss/Clear:** Crystal clear polyester film with a glossy surface
- Frosted/Clear:** Translucent film with a silky smooth finish

ADHESIVES

- Low-Tack:** Removable, reusable and repositionable adhesive
- Permanent:** High grab, high-tack permanent acrylic pressure sensitive adhesive for long duration or rough surface label applications
