Make customizing signage a snap.

The revolutionary vinyl for on-demand, variable data printing.

Features

ThermaTac™ is a self adhesive vinyl that offers durability, strength and excellent runnability through dry toner/laser printers. The vinyl base stock withstands the high heat associated with dry toner/laser printing for smooth runnability, and its proprietary clean stripped edge protects the machine from contamination caused by adhesive oozing.

Benefits

- + Available with removable adhesives in a frosty clear or white finish
- + Cleanly removable for up to six months
- + Proprietary clean stripped edges protect from adhesive oozing that cause machine contamination
- + Incredibly durable, waterproof, resistant to grease, chemicals and other liquids, and suitable for indoor or outdoor environments
- + Durable removable/repositionable applications and labels without leaving adhesive residue on surfaces

Ideas

- Seasonal Signage
